PROJECTS

Passport Automation System(Mini project)

- The core of the system is to get the online registration form (with details such as name, address etc.,) filled by the applicant whose testament is verified for its genuineness by the Passport Automation System with respect to the already existing information in the database . And the verify details and dispatch the passport to user.

Advanced Vehicle Security System

- our project stands at the forefront, integrating cutting-edge features to provide unparalleled protection for your vehicle. From state-of-the-art biometric authentication and artificial intelligence-driven anomaly detection to real-time tracking and remote monitoring, our advanced vehicle security system aims not only to deter theft but to set a new standard for automotive security in the modern era.

  We used technologies like:
  - Arduino
  - GPS modules
  - GSM modules
  - Motion sensors

PERSONAL PROJECTS

Bussiness website

- I recently designed and developed a webpage for an imaginary business. The website showcases the products/services, mission, and values of the fictional company, providing a visually appealing and user-friendly online presence

- Designed with precision and creativity, this platform is poised to not just showcase your products or services, but to engage and captivate your audience. With user-friendly interfaces, seamless navigation, and a commitment to cutting-edge design

- Here is the link for the quick preview of the website follow the link

  https://mjhonny14377.github.io/Bussiness-website/

MY PORTFOLIO WEBSITE

- I've crafted this website as a platform to showcase my skills and expertise. It serves as a comprehensive portfolio, highlighting my projects, achievements, and capabilities. Explore the various sections to get a closer look at my work and the proficiency I bring to the table.

- I'm proud to share that I built this website entirely from scratch. From conceptualization to design and development, every aspect reflects my hands-on involvement. Explore the site to see firsthand the dedication and craftsmanship that went into creating this digital presence.
